Matilda Heron.

HER OBJECT IN VISITING CALIFORNIA—THE STORY OF HER MARRIAGE WITH HARRY BYRNE. From the San Francisco Chronicle, June 16th.

On the 7th of March last the Chronicle printed the history of the romantic love-match made years ago between the great actress, Matilda Heron and the late Harry Byrne. That publication created the greatest interest throughout the country, being copied in hundreds of Eastern newspapers, and eliciting a world of comment wherever the fame of the woman had preceded. The publication and the interest excited thereby determined Miss Heron to come to San Francisco and assert her rights as the widow of Mr. Byrne. Rumor had assigned a humiliating reason for her separation from him, and it was to remove the impression thus created that she came here. Miss Heron has been here several weeks and is living quietly with her brother-in-law—Dr. P. J. Rodley, of Oakland. Yesterday she was in the city, and occupied rooms at the Occidental. Anxious to learn as much of her romantic history as she felt willing to give, a Chronicle reporter called in the morning and sent up his card. The servant returned with a cordial message requesting the reporter to walk up in the dining room—Miss Heron was at breakfast. As he advanced to the table the great actress half arose, and, with a welcoming smile of the hand, motioned to a seat beside her.

In reply to a question about her marriage with Harry Byrne, Miss Heron replied that the newspapers had all mistaken her position, and had partially erred in stating her object in coming here. "I married Mr. Byrne nearly twenty years ago," she said, "and with the exception of a short interval have ever since regarded myself as his wife. It is also true that I married Robert Stoepeel, but it was done under a misapprehension of facts, which I will explain in good time. But another thing is true too—and that is that Harry Byrne looked upon me as his lawful wife until his dying day. That fact I can prove."

Reporter—Then if you can explain your marriage to Stoepeel you will have no trouble in breaking the will?

"Break the will! Why, what are you talking about? I don't want to break the will, although I know it was fraudulent (with great emotion). I love the memory of Harry Byrne as dearly as I love the memory of my mother. I would not touch one cent of his unless he gave it to me himself. But my honor, which has been assailed, I will defend, ay, till the loud thunder, I will defend even with my own life."

As she said this, Miss Heron fairly shook with emotion, and something of the old fire shone in her blazing blue eyes. "And I feel, Sir," she continued, "that if the noble fellow to whom I gave my whole heart could arise in his coffin in that vault at Lone Mountain and hear my words, he would shout, Bravo, Matilda, bravo! God bless him! He was as careful of my good name as a mother is of her child. They say that when he came East he spent but one day in my company. That is false. He spent several weeks at the house of my father, in Philadelphia, and we were on the best of terms."

Reporter—Then why did you separate?

Miss Heron, (with shrug).—Ah, that will all come out in good time. It was nothing creditable to either of us, though. I will say that—and the proof is that on my visit here in 1856, fifteen years after my marriage, we were together much of the time, and he treated me as kindly as it was in his noble heart to do. I will give you one instance to prove how he then regarded me. I owned a lot here, worth about \$2,000, which Judge Frelon having had an offer for, advised me to sell. The papers were drawn up, and I went to Harry's office to sign the papers. He was obliged to sign, too. When he had finished, I took up the pen and wrote "Matilda Heron," and then said, "Harry, is this enough, or must I put another name? What shall I write—Stoepeel?"

"No," he answered; "Byrne; that's your name; you are my wife, are you not?" Remember this was only six years ago."

Reporter—But, Miss Heron, where was Stoepeel all this time? Were you not his wife too?

Miss Heron—Yes, but as I said by a misapprehension. When I learned from Mr. Byrne that he still loved me, that he still looked upon me as his wife, I suffered terrible agony. I thought he had long before procured a divorce, and when I learned that he had never thought of such a thing I knew not what to do. He said, "Tilly, stay here with me. Your marriage with Stoepeel is null and void. There is no need of going East on his account. You

are my wife, and no legal power shall separate us." I told him that my little child was with Stoepeel, and I could not leave it. But I told him that if I could not live with him I would not live with Stoepeel, and (with great emphasis) I never after that did. I went directly to the East and honestly and frankly told Stoepeel my situation. Contrary to my expectation he took the matter quite coolly, only stipulating that as a condition of peaceable separation he should have half of my property, which was then considerable. I at first refused; but afterward finding that he was about to begin suit in the New York Courts, and fearing this might bring me trouble, I decided over every dollar I had in the world to him, and took the darling little child that now sits beside me.

Reporter—Bought her?

Miss Heron—Yes, absolutely bought her. (With much bitterness.) Oh, Stoepeel is a noble specimen of a man! I wish the world had more of them.

Reporter.—It seems to me you did a foolish thing to impoverish yourself for such a man as he.

Miss Heron—Of course I did, but it's my nature. Mr. —, my friends tell me that I'm a perfect child; (hastily) not childish, but childlike, and I'm beginning to believe it. God knows I've had my share of trouble, with all the adulation that has been mine. I would gladly give all the fame of the world ever bestowed upon me for one short hour of unalloyed happiness. They have tried to make me out insane. Failing in that, they sought to injure my character, and leveled the shafts of slander at me, wherever I went. (Earnestly; her great black eyes flashing.) I will tell you one thing—if ever I had a tendency toward insanity, the cruel efforts of my enemies to injure my character very quickly called my reason back to its throne. If insanity consists in hurling one's scorn at those who aim their blows at female virtue, then am I truly insane. Do you know that there are people in this world whose meanness of soul is so great that they grovel in the dirt for daily food? who never look upon a woman but with an impure thought and whose daily life is made up of sneers and flirts at the sex? (With tears in her eyes.) If she be a woman like me—one whose whole life has been the property of the public, but whose very years should now be her safeguard, she is all the more choice a morsel to roll around their slanderous tongues. It is from their venom that I am now here to defend and vindicate myself—not to get Harry Byrne's money. (With a bitter smile.) You may print that in your paper, instead of the fact that my hair is gray.

Reporter—How long have you been in California on this visit, Miss Heron?

Miss Heron—Only a few weeks. I have been in Oakland nearly all the time. I have been twice to the vault where Henry's remains are deposited, but the trial was so great each time that I haven't returned there since. Poor fellow! He looks as natural as he lies in his coffin as he did the last time I saw him. The first time I went I fainted dead away. I had to mount up several steps to reach the casket, and when my eyes fell on the beloved face—so beautiful even in death—I gave a scream and fell backward into the arms of the "janitor" and the driver who accompanied me. For several days I did not venture out, being confined to the house from the effect of the shock my nervous system sustained at that time.

Reporter—Shall you appear on the stage while here?

Miss Heron—That I cannot say. I hope to. Just now I am busy preparing a history of my connection with Harry Byrne, which I design publishing, together with the correspondence that passed between us. In that all that may now seem mystery will be fully revealed, and the public will have no cause to point the finger of scorn at either Matilda Heron or Harry Byrne. Their lives were pure but unfortunate, and their love as true as steel. The cause of their separation before the world I will never reveal until I publish it. My letters and his, now in possession of my counsel, explain all. During all this conversation Miss Heron's little daughter sat by her side. Breakfast had been over an hour, but she still sat by her mother's side, listening to her intently. Miss Heron seems devotedly attached to the little one, and never suffers her to leave her side.

Reporter—Then if you can explain your marriage to Stoepeel you will have no trouble in breaking the will?

"Break the will! Why, what are you talking about? I don't want to break the will, although I know it was fraudulent (with great emotion). I love the memory of Harry Byrne as dearly as I love the memory of my mother. I would not touch one cent of his unless he gave it to me himself. ## Water Works.

The need of water-works in this city is very pressing, and has long been so. In some parts of the lower section of the city it is a weary task to obtain drinking water of even passably good quality, while half way is drank for pure water is of a villainous sort. As a great deal of it contains the drainage of the hills it is very deleterious to health. In fact a draught of really good, sparkling, pure water, is the rarest of luxuries in Rondout.

While the need for drinking purposes is very great in the lower town, it is equally great in the upper section for fire purposes. In the lower section we have the creek as an unfailing supply, but this is far removed from some sections and the stretching of a large quantity of hose is required. But up town the steamer can pump out the whole available supply in very short order. A hydrant at every corner is what is needed imperatively.

We certainly must have a reservoir of large dimensions for the storage of a supply of good, wholesome water, and of sufficient elevation to force the fluid to the tops of our highest buildings. The place is comparatively destitute of steam power, mainly because of the inconvenience and expense of obtaining the requisite water for the boilers. There would undoubtedly be a larger amount of manufacturing done here, especially in such branches as required only a small amount of power, were the water supply good and constant.

The Common Council has made some inquiries into the matter, and has a committee at work gathering facts. There is a company in possession of a charter, with a limited amount of capital paid up. We presume this company is ready to step aside if the city should decide to go into the business. Certainly the supplying of citizens with water is a municipal work, and one that can only be done satisfactorily by the corporation.

Of course the Common Council will proceed with great caution in this matter, and only after a strong expression of the popular feeling on the subject. The debt resting on taxpayers is very heavy, and there will be great reluctance to add to the burden. But water must be had, sooner or later. The work for the Common Council to do is to obtain the supply at the least cost and burden to the public, and at such time as will be least troublesome to taxpayers.

## The Way the Money Goes.

The receipts from the lateral State Canals for 1870, were \$225,052.70, expenses \$1,970,672.03, leaving a net loss to the State of \$1,745,619.33. In 1871 the receipts were \$179,564.58; expenses \$1,460,800.15; loss \$1,281,235.55. Here is an outlay in two years of \$3,026,854.88, for which the tax-payers will never receive a red. What is true for that period has been the case for forty years. There is but one way to speak of it, and that is to say it is a stupendous fraud on the public. If we are to squander money in this way repudiation must come. Men won't stand it always.

It is constantly asserted that the cost for repairs could be reduced by half. Comparison with the disbursements of other corporations clearly indicate this. If the officers of the Delaware & Hudson Canal had the management of the Erie, they would surprise the people by amount saved. Atkinson or the Lounsberries could keep it in repair for less than half its present cost, and leave a margin for its present money. As it is, the Canal Ring, it matters not which party is in power, run the funds and grow rich out of them. We must seek a way out.

## Making It Pay.

In his interesting lecture "Will it pay?" Mr. Gough contrives to make us understand that the greater portion of our people consider that to be the ruling question. To this most other ideas are subordinate. But we have been accustomed to look upon war as a thing which people entered upon and persisted in without much regard to the cost.

It remained for Germany to show how she carries on the business and declares a good dividend. By her admirable system of exacting responsibility from the lowest officers, and such superiority of military organization that she succeeded in securing as faithful expenditure as a mercantile house could command, she did up her war business on as economical terms as possible. But she has even done better, so well indeed that the war stock she issued has declared a pretty large dividend. Not content with whipping France she has made her pay for being thrashed.

France has paid \$1,141,015,000 to Germany, while the latter's expenses foot up only \$278,000,000, making the net profit to Germany \$863,015,000, or about 310 per cent. No nation of ancient or modern times can show a better balance on its war books. No return in money can pay for the loss of precious lives, but we fear Germany will think less of these and remember with great distinctness when insulted that she has the ability to wipe out such insults at a paying rate.

It is one of the curious incidents of the financial world that this great exchange of money has been effected without disturbing the money markets or even crippling France in the least. Nations have a wonderful recuperative power, which is never suspected until tried. But how Frenchmen will ache to bring back those lost francs.

After a continuous pastorate of thirty-five years, President Finney has resigned his charge at Oberlin. He has never equaled for a regular salary, trusting rather to the religious promptings of his people; and the result is he has had all his wants supplied, and has \$20,000 put aside for damp weather.

An infant six months old, which was tied in a chair and then placed in another chair at a fourth-story window, in Hartford, on Monday afternoon, reached top far forward and toppled headlong out. Happily its chair struck a clothes-line forty feet below, and its life was saved, although it was badly hurt.

A trade-mark protection society has just been established in England. Its objects are a system of official registration of trade-marks and labels; register of these for the use of subscribers; the amendment of the laws against fraud and piracy of trade-marks, and the prosecution of parties guilty of such offenses. It would probably prove useful in this country, also.

Two twin brothers in Ohio were (as we are somewhat superfluously informed by a local paper) "born on the same day," they subsequently became brothers-in-law by marrying sisters, went into business as partners, died on the same day, and repose under the same combstone. It is almost a pity that so much romance should be dashed with their prosaic paternity, which was Wilcox, aggravated by the respective pseudonyms of Moses and Aaron.

## TREATY OF WASHINGTON.

WASHINGTON, June 26.

When information was received last week that the Geneva tribunal had decided that claims for indirect damages could not come before the arbitrators, gentlemen occupying high official positions here, considered this was in effect a settlement of the question, and terminated pending negotiations relative to the additional article to the Treaty of Washington. This view, however, was based on the supposition that the decision to be formally announced at a subsequent meeting will be in accordance with the repeatedly declared position of this government, namely, that these claims would not be withdrawn, and that they were presented not as claims for which a specific demand was made, but as losses and injuries consequent upon acts complained of, and necessary to be taken into equitable consideration in the settlement and adjudication of all differences submitted to the Tribunal.

In the diplomatic language used, the decision of what was equitable in the premises, the United States sincerely and without reservation, surrendered the arbitration designated by the Treaty.

WASHINGTON, June 26.

The additional article to the Treaty of Washington as just published, is imperfect, the following paragraph having been omitted:

"Whereas the government of the United States has contended that such indirect claims were included in the Treaty," &c.

The following is the vote on the adoption of the amended articles: Yeas—Senators Ailem, Anthony, Bayard, Bremen, Buckingham, Caldwell, Cameron, Chandler, Crisp, Cragin, Ferry, of Conn., Ferry, of Mich., Flanagan, Frelinghuysen, Gilbert, Hamilton of Maryland, Hamlin, Harlan, Hill, Hitchcock, Johnston, Kellogg, Logan, Morrill, of Maine, Morrill, of Vt., Norton, Norwood, Paterson, Pomeroy, Pool, Pratt, Ramsey, Ransom, Schurz, Scott, Sherman, Stockton, Vickers, West, Wilson, Windom and Wright.—43.

Nays—Senators Casserly, Corbett, Davis, of West Va., Edmunds, Hamilton, of Texas, Kelley, Sumner and Tipton.

WASHINGTON, June 26.

The State Convention of the conservative Democratic party which assembled here to-day was very large. Judge Watson of Holly Springs, presided. There were two colored men in the list of Vice Presidents. The resolutions declare a willingness to unite with all the friends of constitutional liberty, to defeat the re-election of Grant, and to secure the election of Greeley; that civil authority should be supreme over military; that the writ of *habeas corpus* should be zealously upheld; that individual citizens should enjoy the largest liberty consistent with public order, and that there shall be no federal supervision of the national policy of the several states and municipalities; that the overthrow of the administration of Grant is the one vital necessity of the hour; that our delegates to the National Convention are hereby instructed to vote as a unit in favor of the nomination of Greeley and Brown; but should the Baltimore Convention move in opposition to these our solemn convictions, we pledge ourselves to support the National Convention.

## NEW JERSEY DEMOCRATIC STATE CONVENTION.

TRENTON, N. J., June 26.

The resolutions passed assert that the true interests of our country require the establishment of the principles, policy and administrative experience of the Democratic party, and invites the co-operation of all citizens opposed to the present administration, to the burden of the present taxation, to the enormous expenditures of the government, and in favor of a return to the principles that distinguished the administration of Jefferson, Madison and Jackson. They declare that local self government is a right inherent in the people, and any attempt of Congress to interfere with the exercise of this right, is usurpation. The platform concludes as follows:

Resolved, That so far as the Cincinnati platform agrees with the above principles set forth, it merits our approval.

Resolved, That we do authorize and instruct our State Executive Committee to write to and co-operate with any other committee or organization in this state opposed to the present national administration.

Resolved, That we pledge ourselves to abide by and support the National Convention.
